SUMMARY

Abdullah Emad | Media & IT Head | Faculty of Pharmacy, Cairo University (Level 1)

Strategic Media & IT Coordinator with extensive experience in directing the digital presence of major student organisations and science fairs. Proven ability to manage dual roles as both a creative designer/photographer and a departmental coordinator. Currently a first-level pharmacy student, I leverage a unique blend of scientific discipline and advanced media skills to lead teams, mentor peers, and deliver high-impact visual content for organisations like PhAI.

EXPERIENCE

Media & IT Coordinator

11/2025 - Present

PhAI ↗

Promoted from Member to Coordinator to lead the branding and technical execution for big events like Schools, YCH and Chapters.

As a Designer and Photographer I created multimedia content and digital assets to make the organization look more professional.

I handled media coverage for sessions and hub activities from start, to finish making sure they matched PHAI's goal of helping young people and preparing them for the job market.

Media & IT Head

10/2023 - 11/2023

ISEF 2023 (Ain Shams administration level)

I was in charge of making videos and other media for the Ain Shams administration level of the International Science and Engineering Fair (ISEF).

I did the photography and videography. This means I took pictures and videos of what happened at the event. Then I edited them into nice videos that showed everything that happened.

I also did the design. So I made the logos and other pictures that we used for the event.. I made the certificates that we gave to the people who took part.

I was also in charge of the computers and technology. I made sure that all the digital documents were ready on time. This included the things we needed for the awards. For telling people about the event.

Group Leader & Media Head

08/2023 - 10/2023

MAS Orientation Camp (Motafawkeen Ain Shams Secondary School) ↗

Served as a mentor for students at Motafawkeen Ain Shams.

I helped them get familiar with the school's way of teaching over a week.

At the time I was in charge of the camps' media team.

We made pictures and videos.

My goal was to make sure younger students had a time adjusting to school and social life.

The students were able to learn about Motafawkeen Ain Shams.

They knew what to expect from the school.

The media department and I worked hard to create astonishing visuals.

EDUCATION

Pharma(D) ↗	10/2025 - 10/2031
Cairo University - Bachelors degree	
Thanawya Amma ↗	10/2022 - 06/2025
